Building modern partnerships with advisers

Our experience of working with advisers tells us that, above all, you want more time to focus on your clients and their investment needs.

Copia was created to help you do that. To bring institutional-level economies of scale and expertise to your business through our unique way of working with advisers, and through our mantra that ‘there’s a better way to do this’.

Whatever your needs, we’re here to add value to your business, drive efficiencies and ensure you have access to the same cost advantages as institutional investors.

Copia is an award-winning Discretionary Fund Manager (DFM). We believe that asset allocation is the key driver of return, and our aim is to construct superior portfolios to meet client needs across the full risk-return spectrum, across multiple platforms. Using a mix of active, passive and blended solutions, we offer a range of ‘ready to go’, white-labelled and custom portfolios which all offer market-leading value for money.

We like the fact that we own the brand that our clients see – that the portfolios are entirely our own. Would I recommend them to other advisers? Definitely. Especially if they have their own portfolios: for us Copia managed the transfer seamlessly and I’m very happy with the relationship that we’ve built with them.

Graham Hill, Director, Roxburgh Group

How our investment approach works for you and your clients

At Copia, we pride ourselves on being at the forefront of modern investing. Our partnership with you is designed to give you strong returns, robust reporting and less risk, freeing you up to focus on meeting your clients' goals and objectives.

Roles and responsibilities End-to-end integration

Copia offers a range of passive, blended and active portfolio solutions. We believe smarter portfolio construction is enabled by using cost-efficient Index Funds and ETFs (Exchange Traded Funds) for transparency, diversification and risk control, alongside active funds only where they can demonstrate added value.

Reflecting demand from you and your clients, we have also made responsible investing a core part of our philosophy. Sustainability is built into all our products from the ground up. We use world-class data sourced from MSCI, the leader in ESG investment research, and our goal is to enable our IFA clients to drive a new generation of ESG investing, underpinned by our expert DFM services.

Robust 3-stage investment process

Copia's investment process is highly robust. Consistent across all our portfolios and yet personalised, it is designed to meet your clients' needs. Our process involves three key elements:

Copia also offered very good value – when we looked at the cost of their service against the historic performance outcomes we could see that it would be hard for us to do better. On top of this, we liked the fact that the portfolios that they created for us would be using Prosperity's branding.

Portfolio services

Choose the level of service that works for your business

Whether you are interested in the 'ready to go' Copia MPS portfolios, our IFA-branded MPS Plus service to support your client marketing, or in our MPS Custom service designed bespoke to your client base, we have a service to suit your business strategy.

Copia:MPS Custom	Copia:MPS Plus	Copia:MPS
Designed in partnership with Copia to satisfy your clients' very specific personalised investment objectives, Copia's premium portfolio service is MPS Custom. • Bespoke portfolios, designed to satisfy the specific requirements of your firm's client base. • Regulatory risk outsourced to Copia. • Less administrative burden for your firm. • Meetings with your quarterly investment committee. • Branded marketing materials • Regular updates. • Highly responsive support.	MPS Plus is our added-value service range that enables you to build your own IFA investment brand with 'white-labelled portfolios' backed by full marketing support and Copia's expertise. • Build your own unique IFA investment brand. • Each portfolio in the MPS Plus range can be 'white-labelled' with your own brand identity. • Ongoing marketing support, with branded content. • Quarterly investment committee meetings with our fund management team.	Institutional-quality investment portfolios. Copia MPS may be our 'entry level' service but it's by no means entry level in features. • Finely-tuned portfolios, each designed to fulfil the full range of investment needs across your individual client's entire investment lifecycle. • Portfolios are typically constructed using a combination of passive and active funds, to ensure transparency, diversification and risk control. • Available to all sizes of adviser.

All our services are created with one primary goal in mind – to work in partnership and allow you, the adviser, to shine. Whatever your needs, we are here to add value to your proposition, to take the risk and administrative burdens away from your business, and to ensure that you have access to the same cost advantages as leading institutional investors.

Our clients are very happy with the results: they see the high-quality service that Thomson Tyndall provide (and can now focus on) and they benefit from the performance from the model portfolios that we design and agree with Copia, who then implement them.

Copia Lifecycle

Our investment strategies

Whether you are interested in the 'ready to go' Copia MPS portfolios, our IFA-branded MPS Plus service to support your client marketing, or in our MPS Custom service designed bespoke to your client base, we have a service to suit your business strategy.

How we work with you to deliver results and value

Copia has created a scientific toolkit with four key elements. This, together with our research capabilities, enables us to manage investment portfolios with impressive results.

All our processes have been developed by using the very best practices observed and in use across the global institutional investment community. Through Copia, world-class investment methodologies are freely available to advisers of all sizes.

Quant model

Two common risks when it comes to investing are emotion and unconscious bias. Our Quant Model strips away any preconceptions and bias, to ensure the decision to invest in a particular asset class is driven only by past performance and predicted returns given the current economic outlook.

Fund Screener

There are thousands of potential fund options and just a handful will satisfy your investment goals. Copia's Fund Screener filters out the best options according to cost efficiency, liquidity, consistency of performance and currency.

Optimisation Tool

Different asset classes deliver different risk-return metrics and Copia's Optimisation Tool ensures each client's fund portfolio is continually being fine-tuned to meet their target outcomes.

Risk Barometer

Gives clients the reassurance of an extra layer of financial protection. Our Risk Barometer steers investment portfolios towards safer asset classes during periods of uncertainty and diminishes exposure to riskier investments.

Timely updates and commentary

We help you deliver superb levels of care to your clients with a range of intelligence materials and reports including:

Weekly Espresso

Weekly update on key economic and market events

Portfolio Factsheets

Monthly review of portfolio performance

Quarterly Investment Reviews

Quarterly review and analysis of client portfolios

Quarterly IC Performance Reporting & Risk Analytics

Deep dive analysis of portfolios prior to discussion on outcomes and changes at joint investment committee meeting

Your team

The Copia team is led by Ian Hooper and combines its expertise with the oversight of the Investment Committee who bring years of investment experience to Copia's decision-making process.

Ian Hooper
Managing Director

Ian joined Copia after ten incredibly successful years at Progeny Asset Management and the Progeny Group. In his roles of Managing Director and Group Chief Investment Officer, Ian helped build the investment proposition at Progeny from inception and developed several high-performing investment teams across multiple strategies.

With nearly 30 years' experience in financial markets, Ian is a skilled C-Suite executive with a strong track record of driving investment product growth at PE backed entities. His time in high-growth DFM environments has added a huge range of front and back-office knowledge to our team at Copia. He holds the CISI diploma and has Chartered Wealth Manager status.

Gary Stirrup
Director of Sales

Gary has spent the last 30 years working in financial services. His career has spanned life assurance, platforms, asset management, discretionary sales and advisory. Prior to joining us here at Copia, he was Chief Commercial Officer at Ascot Lloyd, and before that Head of UK Distribution at Brooks Macdonald. He's held senior sales roles across the industry and has a proven track record of building and leading successful teams. He excels at kick-starting, and maintaining, strategic partnerships between advisory firms and DFMs like Copia.

Derek McKinnell
Head of Governance

Derek provides independent risk oversight and analysis of Copia's discretionary investment management activities to ensure the continued delivery of satisfactory outcomes for investors, informed by over 30 years' experience in financial services.

Peter Wasko
Senior Portfolio Manager

Having spent more than two decades in the industry, Pete has extensive capital markets knowledge across asset classes, investment strategies and client types and significant experience of manager selection, discretionary portfolio construction and asset allocation, covering Alternative (Hedge Funds) as well as Long-Only Multi-Manager investment funds. With Investment Committee expertise across several roles, he has a strong background of leading investment teams and a robust ability to deliver impressive investment performance.

Richard Warne
Senior Portfolio Manager

Richard has worked in investment management roles for more than two decades. He joined Copia from YOU Asset Management, where he was responsible for running model portfolios and funds, with a core focus on UK equities, global equities, property and real assets. Prior to that, he worked for Credit Suisse and Citibank Global Asset Management, managing institutional equity pension funds and discretionary portfolios.

Marina Contato
Head of Operations

Marina has thirteen years of experience working in financial services. She started her career as an Operations Analyst in the banking sector and prior to joining Copia, she was responsible for trade settlement and reconciliations at Mirae Asset Management. Marina holds a degree in Business Administration from PUC-SP (Pontifícia Universidade Católica de São Paulo) and is IMC Level 1 certified.

Understanding the risks

- Investment model portfolios may not be suitable for everyone
- The value of funds can increase and decrease, past performance and historical data cannot guarantee future success
- Investors may get back less than they originally invested

Copia Capital Management is a trading name of Novia Financial Plc. Novia Financial Plc is a limited company registered in England and Wales. Register Number: 06467886.
